WORST FORM ECZEMA

Defied Best Medical Skill for Eight
Months. Cured in Two Months
by Cuticura Remedies.

This is to certify that a child of mine had Eczema
in its worst form, and which defied the best medi-
cal skill that could be employed here. The little
sufferer was wrapped in agony for at least eight
months. Six months of
that time its suffering
was simply untold, then I
began the use of the Co-
ticura Remedies. In
two months the awful
disease had ceased its
torment, and my dar-
ling boy had rest, and to
all appearance the dis-
ease had yielded, but it
continued the medicine
for several months after
no trace could be seen of
it on any part of his
body. The doctors here
watched the disease with much interest, and could
only say "Well done!" The case was known far
and wide, and everybody was much surprised. But
thanks to CUTICURA Remedies. Could there be
anything on earth that would cause a father to re-
joice it surely would be when the little innocent one
could have such a remedy at hand. (See portrait
herewith.) J. A. NICOLSON, Banker Hill, Ind.

A child was brought to me with chronic eczema
that had defied splendid treatment from many
good doctors. As a regular M. D., should have
continued similar treatment, but thought it useless.
So put it on CUTICURA. The child is well.

A RUSSIAN electrician is said to have
lately patented a process of photograph-
ing and engraving on metals by means
of electricity by which the etching
method is entirely dispensed with.

ACCORDING to the records of the patent
office, few subjects receive more atten-
tion from inventors than that of the
registry of street car fares. The dial is
used more generally than any other de-
vice in the large cities.

DASTARDLY DEED,

New York City Shocked by
a Most Horrible
Crime.

Russel Save the Object of
a Dynamite Bomb
Thrower.

THE THROWER BLOWN TO ATOMS
Several Others Killed and
Sage Seriously
Wounded.

A DEMON'S WORK.

NEW YORK—This morning shortly
after 10 o'clock a man ordinarily
dressed entered the waiting room lead-
ing to the office of Russel Sage and
asked to see him. His request for an
audience was denied and the reason
given that he was too busy. This
seemed to incense the visitor and he
began to talk loudly and angrily, at
the same time walking up and down
the room. Mr. Sage hearing the
noise came out from his office and
asked what the trouble was. The man
approached him and greeted him at
the same time handing him a letter.

Mr. Sage opened and read the con-
tents in which the stranger demand-
ed \$125,000, failing to receive which,
he would kill the millionaire and all
in the building. Mr. Sage after read-
ing the note looked at the man and
started to go. In an instant his hand
was raised and a bomb was thrown.

Before leaving his hand it exploded
with a loud report and shattered
everything in the building. The build-
ing was shaken from cellar to roof.
Sage was severely injured. The
stranger was torn into a hundred
pieces; legs, arms, head and body
were scattered in every direction.

There was nothing left by which he
could be recognized, with the excep-
tion of one leg outside the building,
which had been shot through a win-
dow and had been pronounced that
of a woman. As Sage employed no
woman around his office, it is sup-
posed to be that of the stranger. On
his clothing which was found around
the trunk of his body was a pistol. No
other article not even a scrap of paper
was found by which the bomb thrower
could be identified.

The confidential clerk of Sage was
instantly killed. B. F. Morton was
mangled beyond recognition. Frank
Robinson had his head blown almost
from his body, J. J. Slocum was cut
around the head and may die. Chas.
James was badly bruised and will be
crippled for life. The immense build-
ing was so shaken that it has been
rendered unsafe. Never before in the
history of New York was excitement
so great as today. 50,000 people have
stood watching the great edifice where
the crime was committed. Sage had
received threatened letters for many
years but had paid no attention to
them. Jay Gould has of late received
many of a similar nature. There is
no clue to the source of any of these
letters, but the fact that at last one
of these threats have been carried out
has startled the entire city. The work
is thought to be that of a society that
seeks the division of wealth. The deed

is thought to have been committed
by one chosen for the work by lot and
who knew the awful consequences to
follow the explosion. The failure of
the bomb to explode, he would have
resorted to the pistol.

PLUCKY WOMEN.

SAN FRANCISCO—Two women con-
fined in the city jail were frustrated in
a bold attempt to break away last
night. They had dug a hole through
the wall and were only waiting for
darkness, to skip, when the hole was
discovered.

SNOW.

WINNIPEG—A snow storm of great
dimensions and far reaching in its
destruction has prevailed for 48 hours.
All trains are blocked and traffic is
entirely suspended.

HAIR FOR THE STARVING PRISONER.

MINNEAPOLIS—The first time in the
history of this country to afford relief
to the famine-stricken peasants of
Russia, has originated in Minneapolis.
The scheme is to send a shipload of
flour to Russia by the middle of next
January, and the 5,000 merchant
millers of America are to be asked to
help. The cargo will be 3,000 tons or
6,000,000 pounds, worth \$100,000 to
\$125,000. [The Russian Minister to
Washington has been communicated
with. Railroads are willing to give
transportation and the deal will be
closed as soon as the Russian minister
is heard from. Minneapolis millers
will give twenty-five carloads for the
cargo.]

FIFTEEN KILLED.

ST. PAUL—The south wall of the
Mason block upon which 25 men were
at work, fell to the ground last night
burying 15 of their number in the
ruins. They are all supposed to be
killed. It will take a week to recover
their bodies. There was a heavy wind
blowing at the time and the wall had
not been properly secured.

TARE D AND FEATHERED.

DALLAS, Tex.—H. J. Dean, a sup-
posed correspondent of a Kansas City
newspaper, was abducted while out
driving last night, taken three miles
out of town and tarred and feathered
and ordered to leave Dallas within
four hours or his life would be forfeit-
ed. The authorities are working on
the case.

FOSTER IMPROVING.

WASHINGTON—Secretary Foster was
able to sit up for several hours today,
but is still too weak to leave his room.

Not ce of Sale.

To all to Whom it May Concern:

Take notice that a small clay col-
ored pony branded on left hip thus
—diamond with extension on three
sides—bo's hind feet white was left
on my ranch for pasturage in Feb-
uary 1891 by a person to me unknown
and the charges for said pasturage
now amounts to twenty-five dollars
which has not been paid, and I am
unable to find the name or residence
of the owner of said pony.

Now therefore after sixteen days
from the first publication of this
notice to-wit on the 22nd day of De-
cember, 1891, in front of the county
court house of this (Cochise) county
at one p. m. of that day, I will sell
said pony at public auction to pay
said charges and costs of sale.
